

# *Art-ificial Motion* – an exhibition of abstract photographic art

*Heartbeats*

*Photographic art, in its many forms, allows us to crystallize frenetic city night-life into flowing tableaux, giving us time to pause and contemplate an intrinsic beauty that is often too fleeting to be noticed.*

Opening : 28<sup>th</sup> January 2010,  
18h00-19h30  
until 31<sup>st</sup> March 2010

Restaurant “Le 3<sup>ème</sup> Acte”  
Rue Charles Hanssensstraat 6,  
1000 Brussels (near Sablon)

## **ART-IFICIAL MOTION:**

a collection of abstract photographic art by Alun Foster.

All images are of photographic origin, processed to bring out the subtle interaction of motion, light and colour. All prints are high quality photographic Lambda prints, professionally mounted in Perspex using the patented “Diasec” technique, where the image is chemically bonded to the crystal, transparent support. This results not only in a durable work of art, but one in which the true depth and subtlety of colour and tone are brought to the forefront.

All images are available for sale, and are delivered as exhibited, including a specially adapted aluminium support for wall mounting.
